REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By Dr. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 550 royal pages; Volume II embraces the letter C in 680 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs 6 and 8 shillings, respectively, will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be Rs 45 in India, and 3 guineas in England, exclusive of packing and postage.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEA. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 539 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India R30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole sets.

*No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be R45 in India, and 3 guineas in England, exclusive of packing and postage.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,
Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India R30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole sets.

**. No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be R45 in India, and 3 guineas in England, exclusive of packing and postage.*

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs 6 and 8 shillings, respectively, will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be Rs 45 in India, and 3 guineas in England, exclusive of packing and postage.

REVENUE DEPARTMENT.**A Dictionary of the Economic Products of India.**

By DR. GEO. WATT, C.I.E.,
Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work with, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs30 and in England 3 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs6 and 8 shillings, respectively, will be charged extra for the whole sets.

**. No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be Rs45 in India, and 3 guineas in England, exclusive of packing and postage.*

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first three volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and G in 534 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs 30 and in England 3 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs 6 and 8 shillings, respectively, will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be Rs 45 in India, and 3 guineas in England, exclusive of packing and postage.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By Dr. Geo. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first three volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and G in 534 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs 6 and 8 shillings, respectively, will be charged extra for the whole sets.

*. No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be Rs 45 in India, and 5 guineas in England, exclusive of packing and postage.

For children of whatever age and for women who do no regular work for wages or profit, enter in brackets the occupation of the head of the family or other person who supports them. If a person has more than one occupation, enter the chief one only, unless one of the other occupations be landholding or cultivation, in which case both should be entered. General terms, such as "Government Service," or "Railway Service," "Commerce," "Clerk," &c., should not be used, but the exact kind of service or dealing must be specified. Persons temporarily out of employ should be returned under their last or ordinary occupation. REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first three volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 589 pages; Volume III contains the letters D, E, F, and G in 534 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India R30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole sets.

*No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be R45 in India, and 3 guineas in England, exclusive of packing and postage.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first three volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and G in 534 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume; and for England at 2 rupees 0 annas per volume.

For copies bound in half calf or half morocco, Rs 6 and 8 shillings, respectively, will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be Rs 45 in India, and 3 guineas in England, exclusive of packing and postage.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first three volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and G in 534 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs 6 and 8 shillings, respectively, will be charged extra for the whole sets.

*. No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be Rs 45 in India, and 3 guineas in England, exclusive of packing and postage.

THE RESIDENT IN MYSORE.

NOTIFICATIONS.

Dated Bangalore, the 4th December, 1890.

No. 4030—350-90.—Under Notification of the Government of India, dated the 24th December, 1890, No. 4402 I., and Section 2 of Act XVII of 1890 (The Indian Census Act, 1890), the Resident in Mysore hereby appoints the officers named below to be census officers within the local areas specified :—

<i>Officer.</i>	<i>Local area.</i>
Mr. H. A. Stuart, Madras Civil Service, Superintendent of Census operations for the Civil and Military Station of Bangalore.	The Civil and Military Station of Bangalore.
The District Superintendent of Police, Civil and Military Station of Bangalore.	
Officers in command of regiments, or detachments of regiments, and batteries.	Their respective regimental lines, together with such additional areas adjacent thereto as may be assigned for enumeration by them.

And in exercise of the authority conferred by clause 3, section 2 of the said Act, the Resident in Mysore delegates to the officers named above the power of appointing census officers within the local areas set opposite their names.

Under sections 4 and 5 of the said Act, the Resident in Mysore appoints the District Superintendent of Police to be the officer in the Civil and Military Station of Bangalore, on whose requisition the officers and persons named in those sections shall perform the duties of census officers therein set forth.

Under section 6 of the said Act, census officers are hereby empowered to ask all questions necessary for correctly filling up the "Form of Enumerator's Schedule" with reference to the "Instructions for Enumerators" hereunto annexed.

Under section 9 of the said Act, the Resident in Mysore directs that the schedule to be filled up by occupiers of houses shall be in the form of the "Householder's Schedule" hereunto annexed.

Under section 11 of the said Act, the Resident in Mysore hereby declares that prosecutions under the Act in the Civil and Military Station of Bangalore shall be instituted before a 1st class Magistrate, and he further directs that no such prosecution shall be instituted except with the previous sanction of the District Superintendent of Police of the said Civil and Military Station.

INSTRUCTIONS TO ENUMERATORS.

I.—PRELIMINARY RECORD.

1. In these rules a "house" means any building to which a census number has been affixed.
2. Beginning from the 6th of January 1891, you will visit every house in your block, in the order in which they are entered in the list in your book, and enter in the schedules in that book every person residing in those houses in the manner prescribed below.
3. Before beginning to make these entries, you must read carefully the rules for filling up each column which are printed on the next page, and also the specimen schedule filled up opposite those rules. You should point out to the supervisor all entries about which you are in doubt, and receive his instructions.
4. You must use black ink, and write very clearly in the character you know best.
5. You must take a fresh page for each house. If there are more than eight persons in a house, you should continue the entries for that house on the next page, repeating at the top of that page the number of the house in question, with the word

' continued ' after it in brackets. You must never begin the entries for a fresh house in the middle of a page, but should leave the unused lines blank.

6. If the entry for any person in any of the columns of the schedule be the same as that of the person entered on the line above, you must repeat the entry and never write the word "ditto," or make dots.

7. If any house on your list be found unoccupied, you must write the word " empty " after the number.

8. You are to enter on this visit all persons who ordinarily live in and take their meals from the house, even though any of them may be, at the time of your visit, absent for a short time at the bazaar, or watching crops or fishing, or even for a few days at a wedding or on a pilgrimage, provided they are to be back at the house before the 26th February. After these ordinary residents you should enter the visitors, if any, stopping in the house, but not such as are only there for a day or two, as for a wedding, &c., and will not remain there till the 26th February. In the case of chattrams, cart-stands, temples, hotels, &c., you should enter on this occasion only those who usually live there, and not travellers, &c., stopping only a day or a night or so, in the building.

9. You must have completed all the entries in your block by the 21st of January 1891.

—THE FINAL CENSUS.

10. At the time of lighting lamps on the 26th February 1891, you will take this book as already filled in and again visit every house in your block in order.

11. You must summon the chief member of each family residing in the house, and read over to him the entries made for his family in the schedule. You will strike out the entries for persons who are not present and fill up the form for any person now in the house who was not there when the first visit was made, such as guests, infants newly born, and others. You are to consider as present all living in or taking their meals from the house, even though any of them may be out fishing or watching in the fields, or at a shop, &c., for the night.

12. If there be no room left on the schedule for the fresh entries above mentioned, you must take a fresh page at the end of your book, and enter on it the house-number with the word ' continued ' after it, as prescribed in paragraph 5 above.

13. You must see that you are yourself enumerated as present in the house where you are stopping.

14. You must make no alteration whatever in any entry against the name of any person unless you have to strike out the entries altogether because he or she is no longer present. When you so strike out a person you must draw the line completely through all the entries following that person's name, and not merely through column 1.

15. You must use only red ink for entries and erasures made at the final census on the 26th February.

16. At the final census you must visit every house marked " empty " in your book to see whether any person is now living there.

17. Before visiting the houses in your block you must go to the cart-stands and chattrams, and enter in the schedules all particulars for the travellers you may find there, giving a census ticket to each person to prevent his being again enumerated. If any of the residents at these places, who were entered by you at the preliminary census, are not now present, you must strike out the entries relating to them. You should ascertain, from the village watchmen or otherwise, whether any wandering gang, such as Brinjaries, Lambadies, &c., has come to pitch in your block, and if there be any such, you should go and enumerate it after you have finished the houses.

18. If any householder in your block has been given a separate schedule, you should collect it on the morning of the 27th February, and after seeing that the rules have been complied with in filling up the columns, you should stitch or pin it into your book, next to the last schedule filled up by you.

19. After your book has been inspected by the supervisor, you will prepare the short abstract printed on the back of the specimen schedule in it, as directed by the supervisor, and he will not take charge of your book until he has certified it to be correct.

20. According to the Census Act, every person is legally bound to furnish you with such information as is necessary for filling up the schedule; but you are forbidden to ask for any information not required for the purposes of the census, as, for instance, the amount of any person's income. Any enumerator detected in extorting money on any pretext connected with the census renders himself liable to punishment under the Census Act or the Penal Code.

III.—RULES FOR FILLING UP THE SCHEDULE.

HEADING.—Enter the house-number, the name of the taluk and the village, and the number of the page.

RULE 1.—Column 1 (*Serial number and name*).—Enter first the chief resident member of the family, whether male or female; then all other persons living in or taking their meals from the house. If there be any objection made to giving the name of a female, write the word 'female' in this column. If an infant has not yet been named, enter the word 'infant.' The enumerator is not to insist upon any female giving her own or her husband's name.

The serial number must not be added till the final census.

RULE 2.—Column 2 (*Religion*).—Enter here the religion which each person returns, as Hindu, Mussulman, Jain, Christian, Parsi, &c.

RULE 3.—Column 3 (*Sect of religion*).—Enter the sect of religion followed by each person as he returns it, as Shaivite, Vaishnavite, Lingayet, Madhva, &c., for Hindus; Digambara, Svetambara, &c., for Jains; Sunni, Shiah, &c., for Mussulmans; and for Christians enter whether Church of England, Roman Catholic, Presbyterian, Lutheran, Baptist, American Episcopalian, Syrian, &c. If the sect cannot be stated, enter "not returned" in this column, but do not leave it blank.

RULE 4.—Column 4 (*Caste, &c.*).—Enter the caste of Hindus and Jains, and the tribes of those who have not castes, and the races of Christians, Buddhists, &c., as Brahman, Chetti, Vellala, Kapu, Nayar, Bant, &c., for Hindus; Pathan, Moghal, Moplah, Labbai, &c., for Mussulmans; Eurasian, Native Christian, &c., for Christians; Burman, &c., for Buddhists. Do not enter vague terms, such as Gentu, Hindustani, Marwari, &c., or mere general names, such as Mudali, Naidu, Pillai, Menon, &c.

RULE 5.—Column 5 (*Sub-division of caste, &c.*).—If the caste has been entered in column 4, enter here the sub-division, as Vadama, Tengalei, Vaidiki, Niyogi, Nambutiri, Sarasvat, &c., of Brahmans; Comati, Beri Chetti, &c., of Chetties; Panta Kapu, &c., of Kapus; Kiriyaatil Nayar, &c., of Nayars; Karaikkat, &c., of Vellalas; Masadika, &c., of Bants.

Some castes and most tribes and races have no sub-divisions; in their case the entry in column 4 should be repeated, but this column must not be left blank.

RULE 6.—Column 6 (*Male or female*).—Enter here each person as either (*male or female*), even though you have written the word 'female' in column 1 already.

RULE 7.—Column 7 (*Age*).—Enter the number of years each person has completed. For infants less than one year old, enter the word 'infant.'

If a person cannot state his or her age exactly, the enumerator should ask the relations, or refer to some well-known event of local importance, such as a famine, a cyclone, the Mahamagham and Pushkara festivals, &c., or if the person be present, make a guess at the age from the appearance. He must never insist on seeing any female who is not voluntarily produced before him.

RULE 8.—Column 8 (*Marriage, &c.*).—Enter each person, whether infant, child, or grown-up, as either *married, unmarried, or widowed*. This column must not be left blank for any one of whatever age.

Children who have been married should be entered as married, even though they may not have begun to actually live with their wives or husbands. Persons who have been married, but have no wife or husband living, should be entered as widowed. The enumerator must accept the statement made by the person, or in the case of children, by their relatives.

RULE 9.—Column 9 (*Parent-tongue*).—Enter the language which each person returns as ordinarily spoken in the household of that person's parents.

RULE 10.—Column 10 (*Birth-place*).—Enter the district in which each person was born, and if the person be not born in the Madras Presidency, add the name of the Province or State to the district of birth. The names of villages, taluks, &c., are not to be given. If the person be born out of India, enter the country, as China, Kabul, Ceylon, &c.

RULE 11.—Column 11 (*Occupation or means of subsistence*). [*Read this rule very carefully, and ask the supervisor about all cases which seem doubtful to you.*] Enter here the exact occupation or means of livelihood of all males and females who do work or live on private property, such as rent of land, houses, &c. In the case of children and women who do no work, enter the occupation of the head of their family, or of the person who supports them, adding the word "*dependant*," but do not leave this

column unfilled for any one, even an infant. If a person have two or more occupations, enter only the chief one, except when a person owns or cultivates land in addition to another occupation, when both should be entered. If a person be temporarily out of employ, enter the last or ordinary occupation. No vague terms should be used, such as "service," "Government service," "shopkeeping," "writing," or "labour," &c.; but the exact service, the goods sold, the class of writing or labour must be stated. Agriculturists should be described by the particular vernacular term indicating the nature of their connection with the land, such as landlord, tenant, lessee, herdsman, yearly labourer, day labourer, &c. Women who earn money by occupations independent of their husbands, such as rice-pounding, or doing house-work for wages, or selling firewood, cowdung cakes, grass, &c., should be shown under those occupations. If a person makes the articles he sells, he should be entered as "maker and seller" of them. If a person lives on alms, it should be stated whether he is a religious mendicant, such as a Byrági, Fakir, Vaidikan, &c., or an ordinary beggar. When a person is in Government, Railway, Municipal, or other public service, the nature of the employment should be entered first, and the word Government, Municipal, &c., after, as 'Clerk—Government,' 'Sweeper—Municipal,' 'Labourer—Railway.'

RULE 12.—Column 12 (*Instruction*).—Enter in this column against each person, whether grown-up child or infant, either *learning*, *literate*, or *illiterate*. Enter all those as *learning* who are under instruction, either at home or at school or college. Enter as *literate* those who are able to both read and write any language, but are not under instruction as above. Enter as *illiterate* those who are not under instruction, and who do not know how to both read and write, or who can read but not write, or can sign their own name but not read.

RULE 13.—Column 13 (*Language known by literate*).—Enter here the language which those shown as *literate* in column 12 can both read and write, and if a person knows how to read and write English, as well as a vernacular, enter "English" also. Except where English is known, only one language should be entered, *vis.*, that best known.

This column is not to be filled up for those shown in column 12 as *learning* or *illiterate*.

RULE 14.—Column 14 (*Infirmities*).—If any person be blind of both eyes, or deaf and dumb from birth, or insane, or suffering from corrosive leprosy, enter the name of the infirmity in this column.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first three volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 539 royal pages; Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and G in 534 pages. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 0 annas per volume.

For copies bound in half calf or half morocco, Rs6 and 8 shillings, respectively, will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete and no single volume will be sold separately. The price to non-subscribers will be Rs45 in India, and 3 guineas in England, exclusive of packing and postage.
